Finding Aid for the EDITOR'S COLLECTION

Acc No.:

Future Additions Expected: Yes

Finding Aid creation: September 18, 2014

Size: Approximately 18 linear feet

Abstract

The Editor's Collection consists of approximately 18 linear feet of photographic prints. The collection consists of nearly 6,000 photographic slides documenting approximately 2,100 theatres in the United States as well as some international theatres.

Background Information

The Theatre Historical Society of America was founded in 1969 to promote the legacy of America's historic theatres and insure the documentation of the architectural, cultural and social history of those theatres. Early archive materials were collected by members and kept in separate locations. Over time the collections were brought to one location and combined. From these initial collections the materials were organized and separated into several different collections.

Records detailing histories of specific theatres were labeled the Theatre File, materials containing information on theatre mechanics, cinema chains, architects, THS members, vaudeville circuits, among other topics became the Subject Files, Photos that were used in the publication of THS' quarterly magazine, *Marquee* were gathered into the Editor's Collection, photographic slides, postcards, and negatives became the THS Slide Collection, THS Postcard Collection, and THS Negative Collection respectively. These collections came from THS members and donations made throughout the organization's history.

The Editor's Collection also known as the THS Photo File and the Downers Grove File was compiled by Bro. Andrew Corsini, Robert Headley, and Mark Hylton over a 20 year period. The collection was originally processed and indexed by then archive administrator William Benedict in 1989. At the time the collection was housed in the basement of the Tivoli Theatre in Downers Grove. In addition to these photos the Editor's Collection contains a portion of the photos from the Loew's Collection and prints from the Chicago Architectural Photographing Company (CAPC) Collection.

Scope and Contents Note

The Editor's Collection consists of 18 linear feet, approximately 2,100 folders stored in boxes. Photos are primarily in black and white and the print sizes are commonly 4x5 or 8x10. The folders are organized geographically by country, state, city then by theatre.

The Editor's Collection does not represent all of the photographs that originated from the original THS collections. The Theatre Files contain many prints from the original collections, the Loew's Collection and the CAPC collection.

This finding aid represents a list of folders in the collection but does not provide a count of prints in the collection. Please contact the archivist for more information.

Related Materials

Researchers interested in this collection may also wish to consult the following resources in the THS holdings:

- Subject File Collection
- Theatre File Collection
- THS Negative Collection
- THS Postcard Collection
- THS Slide Collection
- Chicago Architectural Photographing Company (CAPC) Collection

Other materials in the Theatre Historical Society holdings may relate to the topics in this archive. Consult the archivist for further research assistance.

Access Restrictions: There are no access restrictions on the materials and the Collection is open to all. However, the researcher assumes full responsibility for conforming to the laws of libel, privacy and copyright which may be involved in the use of this Collection.
