Finding Aid for the THEATRE HISTORICAL SOCIETY THEATRE FILE COLLECTION

Acc No.:

Future Additions Expected: Yes

Finding Aid creation: July 31, 2014

Size: Approximately 148 linear feet

Abstract

The Theatre Historical Society Theatre File Collection consists of approximately 148 linear feet of files on nearly 10,000 theatres. The Theatre File collection has international holdings but the primary focus is on United States theatres.

Background Information

The Theatre Historical Society of America was founded in 1969 to promote the legacy of America's historic theatres and insure the documentation of the architectural, cultural and social history of those theatres. Materials were collected by members and kept in separate locations. Over time the collections were brought to one location and combined. From these initial collections the materials were organized and separated into several different collections. Records detailing histories of specific theatres were labeled the Theatre File, materials containing information on theatre mechanics, cinema chains, architects, THS members, vaudeville circuits, among other topics became the Subject Files, Photos that were used in the publication of Marquee were gathered into the Editors Collection, photographic slides, postcards, and negatives became the THS Slide Collection, THS Postcard Collection, and THS Negative Collection respectively. These collections came from THS members and donations made throughout the organization's history.

Scope and Contents Note

The Theatre File collection consists of 148 linear feet of folders stored in 28 vertical filing cabinets. The files are organized geographically by country, state, city and then alphabetically by theatre. The file headings use US postal code abbreviations and include the city and theatre name in the file name, for example IL-Chicago-Tivoli.

Below represents a list of file folder headings. The file folders may contain correspondence, photos, news clippings, promotional material, magazines and other publications, audio visual material, data discs, ephemera, postcards, programs, historical information, etc. Though theatres may have more than one file of material each heading is only listed once.

Records in the Theatre Files date back to the late 1800s and span to present day. Coverage is primarily of the United States. There is also material on international theatres.

Related Materials

Researchers interested in this collection may also wish to consult the following resources in the THS holdings:

Subject File Collection
THS Negative Collection
THS Postcard Collection
THS Slide Collection
Editors Collection

Other materials in the Theatre Historical Society holdings may relate to the topics in this archive. Consult the archivist for further research assistance.
